HUNTER TR-12

TACTICAL VEHICLE

The Hunter TR-12: Designed for Danger

The **Hunter TR-12** is a 12-person, multi-purpose tactical vehicle designed to carry troops to dangerous destinations.

A mono-hull built on an independent chassis, the versatile **Hunter TR-12** offers superior protection against guns and rifles, making it ideal for high-risk areas prone to clashes and ambushes. With 4x4 wheel drive action, it is possible for the vehicle to reach remote, difficult-to-access places.

The **Hunter TR-12's** superior features, including high quality technical configuration, a powerful fuel diesel engine, and cutting-edge wheel technology, make it a reliable vehicle for long distances.
